

TEF, as a platform for knowledge sharing, technical & professional development between its members and the business community has a current active membership of around 550 Engineers, from various disciplines & industries spread over Kuwait. TEF and its members have been effectively contributing to the growth of various sectors in Kuwait.

TEF has the credential of successfully initiating the first ever “Technological Innovations Conference & Exposition (TICE)” in Kuwait and continuously organizing the globally renowned and acclaimed event since 2010, which brings out several Innovative Technologies and Solutions from various countries.

As a part of our Social contribution and Community support towards the growth of Engineering & Technology in Kuwait, TEF had initiated “Engineering Excellence Award (EEA)” in the year 2016, which encourages inherent talents of the Technologist, Researchers & Performers with appreciations & awards.

This year 2018, TEF is organizing 2nd EEA & 9th Conference, which will be conducted on 4th November 2018 (Sunday) @ Hotel Radisson Blu, Kuwait with a Theme of ‘Embrace the Thriving Technologies’.

As this event being one of its unique kind in Kuwait, which brings out world’s leading Innovative Technologies, we would like to have your esteemed organization to be part (Sponsor, Exhibitor, and Presenter) of the event.

The various activities of TEF can be viewed in the web page www.tefkuwait.com

Regards

For and on behalf of Tamilnadu Engineers Forum, Kuwait
